

The Institute for Human Individuality

2006 MEMBER DIRECTORY

PETER J. D'ADAMO, ND, MIFHI
Dean of Academics

Registrants of the Institute are health professionals and lay educators who have completed certification under the guidance and tutelage of Dr. Peter D'Adamo, IfHI Academic Dean.

Fellows of the Institute for Human Individuality (FIFHI) with a registration code beginning with 'A' were certified at IfHI 2003, those with a 'B' at IfHI 2005. IfHI Fellows routinely apply the principles of the Blood Type Diet and other nutrigenomic modalities in their clinical practices.

Fellows with a 'K' at the beginning of their registration number are *Masters of the Institute*. Masters of the Institute for Human Individuality (MIFHI) are health professionals who have completed certification in both basic and advanced nutrigenomics, metabolomics and polymorphic sciences.

Masters of the Institute are eligible for sponsored research funding and are fully capable of teaching the principles of nutrigenomics and polymorphic science to both other scientists and the general public
